Location/Weekend Stays

Maritime College is located on a 55-acre scenic waterfront property on the outskirts of New York City on the Throggs Neck peninsula.

WEEKEND STAYS - Overnight campers who stay for two weeks or longer have the option of either returning home for the weekend or staying over the weekend at the camp. In the event campers choose to go home on the weekend there is no charge. Those campers who choose to stay will be charged \$290 per weekend. This cost will cover lodging, all meals, admission to a movie on Friday evening, and admission to different attractions on Saturdays.

Camp Highlights

LECTURES -Lectures are given on the fundamentals of the game. Remember it is through the proper execution of fundamentals that you will become a good baseball player.

POSITION PLAY -During the week all positions will be covered by our staff. Each camper will have the opportunity to learn his primary position, but will also be given ample opportunity to learn any other position or positions he is interested in.

DRILLS -Drills are used to teach campers the skills necessary to succeed and the notion of teamwork.

INSTRUCTIONAL GAMES -We want every moment of the week to be a learning experience for every camper. It is for this reason that during games, if a camper makes a mistake or does not execute properly, one of our coaches will show him what he did wrong and how to do it right. It's another way of instructing our campers, and leaves them more knowledgeable and improved in their skills.

INDIVIDUAL INSTRUCTION -Our camp is known for offering that personal touch and giving the individual attention some campers may need to truly learn and understand the game more thoroughly. Staff is always available on or off the field to help campers improve their skills.

TEACH TO UNDERSTAND -We want every camper to understand the reasoning behind the methods we use. It is for this reason that our coaches take the time to explain the reasoning behind why you execute a certain way. If campers can understand the methods, they are more likely to comprehend and remember them after leaving camp.
